

# COURSE PROGRAMME

Scuola Corghi was founded in the late 1970s with the aim of **training professional operators and improving the skills** of users of Corghi workshop equipment and services.

Depending on the **type**, the courses can be:

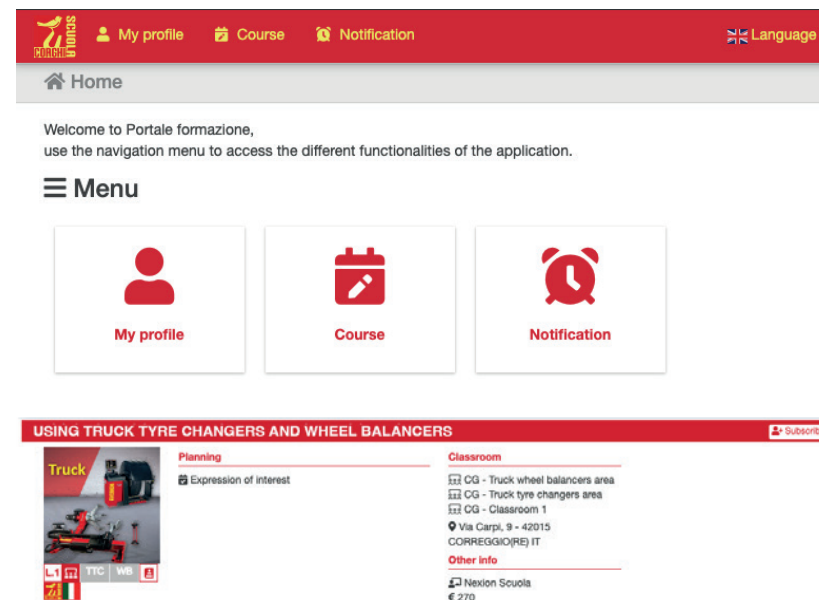

-  in-person, held in the training room;
-  live streaming, to be attended through Microsoft Teams platform;
-  on demand, by downloading the video course.

In-person courses are generally aimed at **groups of a maximum of 8 people**: the limited number of participants allows for more effective and customised teaching, offering many opportunities to exchange views and for practice session on equipment.

Each participant will be provided with a free user account on the **Training Portal**, where he/she will be able to register for the courses he/she is interested in and **consult all the teaching materials related to the courses he/she has attended**.

Live streaming courses will be available in full for participants to review and download.

Upon completion of the course, each participant will receive a  **Certificate of participation** certifying the training contents.

Scuola Corghi Training Portal, [scuola.corghi.com](https://scuola.corghi.com)

At **Scuola Corghi** large **training areas** are available, where **theory and practice** are both possible.

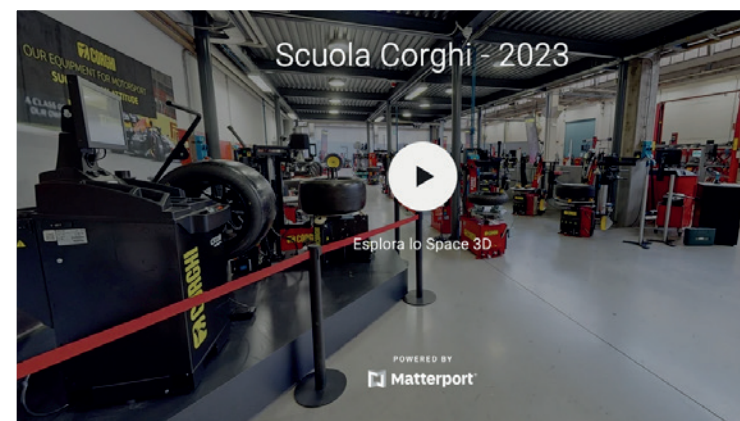

*Classroom for practice*

*Scuola Corghi, Via per Carpi n. 9, Correggio*

Scuola Corghi can now **be virtually toured** thanks to **Matterport technology** that offers a realistic and immersive user experience, complemented by the possibility for the virtual visitor to view specific videos and download the commercial documentation for each product.

**CTC** tyre demounting and mounting equipment.

**WB** wheel balancing equipment.

**LE** lifting equipment.

**ME** various equipment to complete workshop service.

**AC** equipment for vehicle air conditioning system recharge.

**SE** services and software for equipment and workshop.

**ADAS** equipment for vehicle ADAS system check.

**TTC** heavy vehicle tyre demounting and mounting equipment.

**WA** equipment for vehicle geometry angle alignment.

**TE** vehicle testing equipment.

**DIA** equipment for vehicle electronic control unit diagnosis.

## Category

**INSTALLATION**  
this course is dedicated to Service Technicians

**TECHNICAL / COMMERCIAL**  
this course is dedicated to Service Technicians and to salespersons

**SERVICE**  
this course is dedicated to Service Technicians

**USE**  
this course is dedicated to equipment users

## Type

**IN-PRESENCE**  
course held at Scuola CORGHI

**VIDEO-COURSE**  
24-hour availability online

**WEBINAR**  
videoconference through Microsoft Teams platform

## Category

## Content for product line

## Type

Theory and practice on using one of the tyre changers from the MASTER family: Artiglio Master FORCE, Artiglio Master CODE, Artiglio Master 28, Artiglio Master Jolly.

### The course is designed for:

- ▶ Tyre technicians
- ▶ Technicians
- ▶ Sector operators

## Language

## Duration

## Notes

FREE for Technology Partner customers.

[www.corchitechnologypartner.eu](http://www.corchitechnologypartner.eu)

## Necessary preconditions

Please specify Master model for which course is required.

## Course content:

### Master Family tyre changers:

- ▶ **Smart Corghi System** technology
- ▶ Demounting and mounting manual and automatic procedures (where applicable)
- ▶ Demounting and mounting procedure with pressure sensor
- ▶ RFT (WDK) demounting procedure
- ▶ **TPMS** tool for pressure sensors
- ▶ Ordinary maintenance and calibration procedures
- ▶ Practical tests on Master Family tyre changers

## Price for the course

conditions valid for Technology Partner customers

per person  
VAT NOT INCLUDED

## Category

## Content for product line

## Type

**Course for beginners and operators with a minimum of experience aimed at providing technical information and updates**

### The course is designed for:

- ▶ Tyre technicians (even not experienced)
- ▶ Technicians
- ▶ Sector operators

## Language

## Duration

## Notes

Free Data Bank Card including 3 credits for online database update  
**CARD VALUE 25.00 EUR**

## Necessary preconditions

A basic knowledge of geometry check is advisable.

## Course content

- ▶ Wheel alignment theory
- ▶ Wheel alignment procedures
- ▶ Practical exercises
- ▶ Electrical steering reset
- ▶ Hints concerning ADAS wheel alignment-related systems

**Price for the course**

per person  
VAT NOT INCLUDED

## Category

## Content for product line

## Type

## Theoretical and practical knowledge of wheel balancing, diagnosis and wheel deformation (Match Mounting)

### The course is designed for:

- ▶ Tyre technicians (even not experienced)
- ▶ Technicians
- ▶ Sector operators

## Language

## Duration

## Notes

-----

### Course content:

- ▶ Wheel centring
- ▶ Wheel balancing programs and imbalance theory
- ▶ Weight saving program (WM)
- ▶ Wheel diagnosis and Match-Mounting
- ▶ I-POS program
- ▶ Eccentricity and wobble
- ▶ Practice on diagnostic wheel balancers
- ▶ Ordinary maintenance and calibration procedures

### Necessary preconditions

Please specify type of equipment used: diagnostic or traditional wheel balancer.

### Price for the course

per person  
VAT NOT INCLUDED

## Category

## Content for product line

## Type

**Theory and practice on RunFlat and UHP tyre technology and mounting, wheel balancing, vibration minimisation technologies and weight saving**

### The course is designed for:

- ▶ Tyre technician with a minimum of experience
- ▶ Sector operators, technicians
- ▶ Car dealers also specialised in wheel change

## Language

## Duration

## Notes

Practice on RunFlat and UHP mounting/demounting is carried out on WDK (German certifying body) approved equipment and also includes the wheel sensor test procedure (compulsory on newly type-approved cars from 2012) with the special TPM-02 tool.

## Necessary preconditions

Please specify the type of tyre changer used: Leverless or traditional.

## Course content

- ▶ General information on Run-Flat tyres
- ▶ General information on RunFlat and UHP technology
- ▶ Basics regarding tyre pressure measurement and sensors (TPMS)
- ▶ Approved procedures for correct demounting/mounting
- ▶ Practical exercises
- ▶ Wheel balancing basic theoretical principles
- ▶ Practical exercises also including:
  1. main accessories and clamping systems for correct wheel balancing
  2. use of Alu programs for wheels with alloy rims (hidden weight)
  3. possibility of removing imbalances using the new sonar check technologies and weight reduction programme

## Price for the course

per person  
VAT NOT INCLUDED

## Category

## Content for product line

## Type

**Basics regarding UNIFORMITY diagnostic tyre changer - technical information on complete diagnosis and analysis of wheel behaviour on the road**

### The course is designed for:

- ▶ Tyre technicians (even not experienced)
- ▶ Technicians
- ▶ Sector operators

## Language

## Duration

## Notes

FREE for Technology Partner customers

[www.corchitechnologypartner.eu](http://www.corchitechnologypartner.eu)

## Necessary preconditions

-----

## Course content:

- ▶ Complete diagnosis procedure on roller simulating wheel on road
- ▶ Plysteer procedure for tyre conicity and drift measurement
- ▶ Rim and tread depth diagnosis procedure
- ▶ Match-Mounting procedure and use of the diagnosis roller
- ▶ Theory and explanation of wheel deformation terminology (eccentricity, Plysteer, radial force, lateral force, drift, wobble)
- ▶ Wheel demounting and mounting procedure

## Price for the course

per person  
VAT NOT INCLUDED

In order to participate in our courses, it is necessary to have an active profile in our [Training portal](#).

If the applicant is not yet registered, he/she can activate it in two ways:

- ▶ independently at this [link](#).
- ▶ via e-mail at [scuolacorghi@corghi.com](mailto:scuolacorghi@corghi.com), by sending us the following information:
  1. **Company name and VAT no.** of the participant/company
  2. **Generic e-mail address of the participant/company**
  3. **First and last name** of the participant
  4. Participant **e-mail address** (can be the same as in point 2)
  5. Participant **mobile phone** (optional but recommended)

Upon registering, the participant will receive by e-mail the **credentials to access his/her personal area** within the Training Portal, where he/she will find all the information about the courses, the teaching materials and the certificate at the end of the course.

On the other hand, if the participant already has an active profile, he/she can enrol to the courses independently.

## GENERAL CONDITIONS VALID FOR ALL COURSES

- ▶ Unless otherwise specified, the number of participants for each course is a minimum of 4 and a maximum of 8.
- ▶ Once the maximum number of participants has been reached, enrolment will be closed.
- ▶ If the minimum number of participants for each course is not reached, the course may not take place. In that case, interested parties will be duly informed in order to find the most suitable solution.
- ▶ If a company enrolls more than one person, the first will pay 100 per cent of the course fee, while from the second on a 50 per cent discount on the course fee will be granted.

### Practical information

- ▶ In-presence courses  will be held at Scuola Corghi.
- ▶ The price of each course includes teaching materials and lunch in case the course lasts a full day.
- ▶ A certificate of attendance will be issued at the end of the course with positive result.
- ▶ Travel, transfers and in case accommodation are at the participant's expenses. The names of partner hotels can be suggested on request.
- ▶ Enrolments must be received by e-mail or through the [Scuola Corghi Training Portal](#).
- ▶ Enrolments will be considered confirmed after they have been approved by Scuola Corghi.
- ▶ Once confirmation has been received, the customer is asked to proceed with payment in advance according to the terms specified in the application form.

scuola.corghi.com

## GENERAL CONDITIONS VALID FOR TECHNOLOGY PARTNER CUSTOMERS

**TECHNOLOGY PARTNER** customers are entitled to attend two courses per year among those identified with the club logo. Attendance to these training courses will be **COMPLETELY FREE** and lunch will be paid for by us.

**TWO FREE COURSES**

### Practical information

- ▶ In-presence courses  will be held at Scuola Corgi.
- ▶ The price of each course includes teaching materials and lunch in case the course lasts a full day.
- ▶ A certificate of attendance will be issued at the end of the course with positive result.
- ▶ Travel, transfers and in case accommodation are at the participant's expenses. The names of partner hotels can be suggested on request.
- ▶ Enrolments must be received by e-mail or through the **Scuola Corgi Training Portal**.
- ▶ Enrolments will be considered confirmed after they have been approved by Scuola Corgi.
